FLYINGGROUP, a rapidly growing business jet operator in Europe, is looking for an **Aircraft Technician B1, B1/ B2** for immediate employment for its office in Antwerp, Belgium.

Profile:

- You have at least 5 years of experience in aviation
- You are in the possession of a PART 66 Cat B1 or B1/B2 License
- You are motivated to work in an aviation environment
- You have a technical experience, preferable in aviation
- You are flexible regarding working hours and shift work
- You are able speak, write and understand English
- You have a basic knowledge of general PC applications
- You are an aviation enthusiast and open for other tasks

Job Description:

You will work in a line and base maintenance environment on newly, high value business jets located in Antwerp, Belgium. As aircraft technician, you will be part of a team of Cessna Citation specialists that offers high quality work in accordance with the EASA regulations. You are responsible to identify and communicate defects. You are rigorous regarding work quality and safety.

Tasks:

- Removing and replacing aircraft parts and components
- Preflight
- Perform adjustment and tests according to manufacturer manuals
- Skilled in use of tools and test equipment
- Knowledge of safety, security and housekeeping regulations
- Ability to inspect, trouble shoot and repair defects.
- Administrate and update maintenance records
- Basic handling (if needed)

To apply, candidates can e-mail their resume as attachment to eric.pauwels@flyinggroup.aero (subject : Vacancy Aircraft Technician B1 B2).
Only candidates meeting the above requirements will be contacted!
